The Bold and the Beautiful: The Best of New York Design Week

MAY 5, 2017 12:05 PM
by MADELEINE LUCKEL

NYCxDesign, colloquially known as New York Design Week, is once again off and running. The event, which opened Wednesday, technically runs through May 24. In other words? The week may be winding down, but for those enthralled by all things design, there's still plenty of time to see and be seen. Above, as a jumping-off guide, to further pique your interest, we've rounded up some of our personal favorites. Across the board, minimalist tendencies marry with detail-oriented craftsmanship. Each piece, whether it's a collaboration or part of an actual exhibition, is truly the sum of its parts. But don't just take our word for it, click your way through the snapshots of the innovative installations and memorable collections currently on view.

Ghost and Thaw by Fernando Mastrangelo at Collective Design

White, dreamy, and celestial, Fernando Mastrangelo's new works are both detailed and minimalist. This is Mastrangelo's first foray into lighting design.
